

DESIGNER BEADCRETE

Pool plaster

Introduction

- ▣ **MGPL are exclusive authorized distributors of Designer Beadcrete in Gujarat.**
- ▣ **Designer Beadcrete is a patented exposed reflective aggregate that produces a concrete pool interior finish of stunning aesthetic colour and water clarity when exposed to light.**
- ▣ **Designer Beadcrete, gives your concrete pool a rich beauty that cannot be achieved with any other pool finish material.**

Technical composition

- ▣ Designer Beadcrete is made from:
- ▣ A premium blend of white cement,
- ▣ Radiant white quartz sand,
- ▣ Inorganic coloured oxides,
- ▣ Colour-fast quartz aggregate
- ▣ 'Retro reflective' silicate spheres

Why Beadcrete?

- ❑ Does justice to your designs, by giving a quality finish that compliments today's outstanding pool designs and designer landscape architecture.
- ❑ Beadcrete flows with the shape of your pool, finished smooth and flat by steel towelling.
- ❑ It can be applied to the tightest of curves.
- ❑ It's your choice as there is a comprehensive range of vibrant colours to choose from and custom colour matching is available.
- ❑ Experience the added dimension of refracting light dancing beneath the water's shimmering surface bringing the pool "to life".

Unique features of Designer Beadcrete

- ▣ Provides pool water clarity and an array of rich light reflective colours for new pools and renovations.
- ▣ Low maintenance
- ▣ Durability – 20 years life expectancy
- ▣ Genuine safety – practically eliminates skin cuts and abrasions.

Application

Preparation – New concrete shells

- The product mix melds to any pool shape including the tightest curves. Correct preparation and attention to detailing of the pool shell before product application is therefore an important first step to avoid disruption to decorative affect, minimise product waste and achieving good final finish consistency to the overall work.
- The concrete pool shell must be cured for at least 14 days.
- The concrete pool shell must be thoroughly clean, remove all loose materials, concrete dust, dirt, oil, leaves and laitance from the surface. If acid washed, hose out thoroughly to dilute/remove any acid.
- The concrete pool shell must have a good surface, as it is key to promote product bond. Specification of a broom or wood floated concrete pool shell finish is recommended. Smooth surfaces must be made rough to the point where a coarse key texture is achieved.
- Use of shade covers on days of high ambient temperature and low humidity is necessary.

Benefits

- Complements pool designs – quality, classic finish creating a stunning “retro-reflective” colour feature that is unique and enhances the style and architectural form of any concrete swimming pool old or new.
- Can be applied within clean water bodies as well as water immersed fountain’s.
- Perfect on any shape or curve – flows and melds to any pool shape and to the tightest curves without disruption to decorative effect. The finish is smooth textured and flat to practically eliminate skin abrasion yet provide slip resistance appropriate for applied pool finishes.
- Comprehensive colour range – simply stunning choice to transform any concrete pool into an object of unique beauty and lifestyle appeal.
- Easy to maintain – polymeric cement modification means less regular maintenance/lower chemical costs and improved stain resistance and durability.
- Assured product quality and consistency – pre-blended and bagged for colour uniformity and design performance.
- Preferred applicators – ability to perform the work in a proper and workman like manner is to your advantage and exclusively referred to you by Designer Beadcrete, accredited distributors.

Pricing

- ❑ Designer Beadcrete provides a range of colour options so you can choose from an array of rich reflective colours to compliment your concrete pool design, your home and lifestyle surroundings.
- ❑ What's more, Designer Beadcrete offers you a selection of custom finishes:
- ❑ BC 3000; BC 6000 and BC 8000 that gives you flexibility to tailor, according to your personal taste, the visual appeal and architectural form you can imagine will give your swimming pool unique character and individual style.
- ❑ All options are premium products offered in a wide spectrum of price range.
- ❑ You have to see it to believe it!
